Recycling Center Relocation

There is a DEP remediation going on at the Cross Street Recycling Center and the land owner asked the Borough to vacate it, as it must be fenced off and access limited. It is possible to temporarily use an area across from the Swim Club in the parking lot. Discussion that permits still valid for land across from Swim Club. Administrator will review so it can be open for May. Three Open tracts of land around town are contributing to the Borough's affordable housing obligation and the Council spoke about methods to reduce it, as the open tracts of land are not suitable for housing. Motion: Council President Carpenter made a motion to close 2nd Citizen Remarks. Seconded by Councilman Robbins. The motion passed with a voice vote.

COUNCIL RESPONSE TO CITIZENS REMARKS

Borough Administrator O'Malley- the delays in the Zoom meetings are due to the contractor installing the fiber. There are special considerations with the Police Department's connection to the Prosecutor's Office which was finished first and the porting process is complex.

Mayor Fede- the sign was taken down at the Recycling Center and there was a reverse 911 call made with the location of the new Recycling Center. The new location will be included when the recycling schedule is sent out.

Councilwoman Kohles - noted that the Board of Education (BOE) has been hosting online meetings, but attendance has been low. She also stated that when the borough offered both in-person and online meeting options, attendance was similarly limited.

Borough Clerk Flores-Bolivard- the agenda was sent to the webmaster but sometimes there are delays in posting. After being sent to the Council it is not immediately sent to the webmaster because there can be last minute changes and the agenda online should be accurate. She will email a copy to any resident that requests the agenda if it is not online.

Borough Administrator O'Malley- the Borough uses a freelance webmaster with no set hours, which saves money. He is usually great about posting items online with a short turnaround time.

REPORTS

Councilwoman Kohles- will send out a list of upcoming school events.

Mayor Fede- reminded everyone of the Chief's Election on Saturday, December 7th at 7:00PM. The Menorah Lighting advertisement Chabad posted online is incorrect, it has a carnival which she understood was not occurring this year. Council members agreed.

Borough Attorney Betesh- is going to work on reducing the Borough's affordable housing obligation.

ADJOURMENT

Being no further business before the governing body, **Councilwoman Kohles** made a motion to adjourn the meeting, which was seconded by **Councilman Vergara**. The motion passed with a voice vote at 8:37 PM.

I hereby certify that this is a true copy of the minutes.

I. BACKGROUND

Neglia has prepared this proposal to provide Professional Surveying, Engineering, Bidding, and Construction Management Services for the above referenced project. We understand that the Borough would like to construct a new electric service with a GFI outlet; a new water service with tap, seasonal meter enclosure, and backflow preventor; a landscape drip irrigation system, and additional site landscaping.

We understand that the Borough has received a NJDCA Local Recreation Improvements Grant for this park improvement in the amount of \$68,000. With the total project budget of approximately \$123,600 (per our March 06, 2024 preliminary engineer's estimate), the anticipated project scope would need to be reduced or capital improvements funding will be necessary. We have assumed that the entire project scope would be funded and constructed.

II. SCOPE OF SERVICES AND BUDGET**PHASE I – SURVEYING & DESIGN PHASE**

Neglia Group will perform the following surveying and design tasks as they relate to the above-mentioned Olsen Park improvements within the Borough:

A. Topographic and Utility Information

We may prepare a limited on-ground topographic survey of the subject parcel as listed above. This survey may show any accessible aboveground physical features (buildings, walls, curbs, walks, fences, utility structures, paved areas, trees, etc.) within the site. This survey may also include one-foot contours and spot elevations as needed to define high points, low points, etc. This scope would be limited to the current Veterans Memorial Park and Community Garden Area. If this information is not field gathered, our office will utilize current available aerial imaging and topographic information to prepare the construction plan set.

Any accessible aboveground utilities including manholes, catch basins, inlets and/or valve locations may be shown within the scope limits described above. Underground storm and sanitary pipe sizes, material and invert data may be field measured where accessible. Underground utilities such as gas, water, electric, etc. may be shown as digitized from existing plans, if available, or from any painted mark-out present during the survey. This scope excludes both utility designation (tone-out) and the cleaning/pumping of underground structures, if required.

If Neglia prepares a survey document, Neglia would prepare this survey in accordance with the rules and regulations of the New Jersey State Board of Professional Engineers and Land Surveyors (NJAC 13:40-5.1). Horizontal datum would be based on New Jersey Plane Coordinate System North American Datum (NAD) 1983 or current deed datum. Elevations would be based on North American Vertical Datum (NAVD) 1988.

B. Design Plans and Specifications

Neglia Group will prepare a drawing plan set along with a bound report of construction specifications for the Veterans Memorial Park improvements project. The plans and specifications will include items such as the electrical service, water service, and site restoration. The specifications and plans will be in such a form and manner that they will meet with all Municipal, County, State and Federal requirements. Said

specifications and plans shall be in such a form that they are suitable for public bidding. Please understand that we have assumed that all off-site utilities have sufficient capacity..

C. Bergen County Soil Erosion Control Conservation District Submittal (if necessary)

Soil erosion and sediment pollution control plans, narrative reports, and calculations will be prepared in accordance with the New Jersey State Soil Erosion Regulations and will be submitted to the Soil Conservation District (if necessary). In addition, we will complete the stormwater management basin database form and Authorization to Discharge Stormwater during Construction Permit if required by the District (if necessary).

D. Bid Tabulation and Review

We will prepare a final engineer / construction cost estimate during the course of the project work. We will review bids and create a bid table for your use. In addition, Neglia will attend a bid meeting at Borough of Bogota Borough Hall.

PHASE II – CONSTRUCTION MANAGEMENT PHASE

B. Construction Management Services

Neglia will provide part-time construction management services as they relate to the aforementioned Veterans Memorial Park improvement project. The services will include the following:

1. Coordinate and attend a Pre-Construction meeting and prepare meeting minutes for distribution.
2. Review and distribute submittals for the appurtenant construction materials.
3. Issue a Notice to Proceed and perform a site walk through with the Contractor and appropriate officials.
4. Provide video and / or preconstruction photos within the contract limits.
5. Provide part-time construction observation, including site visits by a Principal from Neglia.
6. Maintain progress photos and inspection reports on a daily basis.
7. Attend progress meetings if required by the Borough.
8. Issue the appropriate correspondence to the Contractor which, if required, will consist of non-conformance matters, delays, traffic issues, resident complaints, etc.
9. Monitor and certify quantities for payment, which includes preparation of the appropriate Payment Certifications.
10. Negotiate Change Orders, if applicable, and prepare the necessary documents for such.
11. Perform a walk through with the appropriate officials upon substantial completion and prepare a punch list.
12. Perform a final inspection of the punch list and prepare the necessary close out documents.
13. Submit close out documentation to the appropriate agencies, if applicable.

Be advised that site safety is the sole responsibility of the Contractor. However, should Neglia observe conditions that are a detriment to vehicular and pedestrian traffic, along with their labor, we will advise the Contractor accordingly. In addition, we rely solely on the Borough's Financial Department to review Certified Payroll regarding current wages. This proposal does not include any environmental services regarding soil testing and disposal and will solely rely on the Borough's Licensed Site Remediation Professional (LSRP) for such.

As is required by Local Public Contracts Law, the lowest responsible bidder will be required to be awarded the contract for this project. It shall be noted that Neglia has provided a budget for this project phase assuming that the project construction will be diligent and will follow the project specifications and project schedule without significant communications and direction. Should the contractor not be diligent and responsive during the construction process and additional construction management effort is required by this office, our office would issue a proposal with additional scope and budget to address the additional effort that would be required. If the contractor is responsive and diligent, this additional scope and budget would not be required.

III. DELIVERABLES

We will provide all survey data, plans and specifications to the Borough of Bogota in digital format in AutoCAD format if requested, and one (1) hard copy. See "Conditions and Exclusions" section for mass printings.

IV. ANTICIPATED TIME FRAME

Neglia is prepared to start the described services immediately, upon receipt of a signed copy of this agreement and the General Conditions. We anticipate completing the surveying and design documents within fifty business days excluding holidays from the date of authorization. The schedule provided above is weather and ground cover dependent. We will notify your office should the schedule need to be revised.

V. PAYMENTS AND COST OF SERVICES

Invoices will be submitted to your attention on a monthly basis to monitor the progress of the project. We have included one (1) project team meeting as part of the scope and budget for this project if necessary. Additional meetings will be billed in accordance with the attached Schedule of Fees on an hourly basis.

VI. CONDITIONS AND EXCLUSIONS

ARTICLE I - METHOD OF CHARGING AND PAYMENT CONDITIONS: Compensation for the engineering and related Services ("Services") to be provided by Neglia ("Neglia") shall be based on the Schedule of Fees and Charges identified in the Proposal. Neglia periodically shall submit invoices to the Client. Client shall pay each invoice within thirty (30) days of the date of the invoice. However, if Client objects to all or any portion of any invoice, Client shall so notify Neglia in writing of the same within fifteen (15) days from date of invoice, give reasons for the objection, and pay that portion of invoice not in dispute. Client shall pay an additional charge of one and one-half percent (1 1/2%) of the amount of the invoice per month for any payment received by Neglia more than thirty (30) days from the date of invoice. Payment thereafter shall first be applied to accrued interest and then to the unpaid principal. The additional charge shall not apply to any disputed portion of any invoice resolved in favor of Client. In the event of a legal action brought by Neglia against Client for invoice amounts not paid, Attorneys' Fees, Court Costs, and other related expense shall be paid to the prevailing party by the other party.

ARTICLE II - PROFESSIONAL RESPONSIBILITY: Neglia represents that Services shall be performed, within the limits prescribed by Client, in accordance with the 'Scope of Services' contained in the Proposal and in a manner consistent with that level of care and skill ordinarily exercised by other comparable professional engineering firms under similar circumstances at the time the Services are performed. No other representations to Client, expressed or implied, and no warranty or guarantee is included or intended, hereunder, or in any report, opinion, document, or otherwise.

ARTICLE III - LIMITATIONS OF LIABILITY: The liability of Neglia, its employees, agents, and subcontractors (hereinafter for purposes of this Article III referred to collectively as "Neglia"), for Client's claims of loss, injury, death, damage or expense, including, without limitation, Client's claims of contribution and indemnification with respect to third party claims relating to the Services or to obligations imposed, hereunder, (hereinafter, "Client's Claims") shall not exceed the aggregate: (1) the total sum of Neglia's fee or \$ 50,000.00, whichever is greater, for Client's Claims arising out of professional negligence, including errors, omissions or other professional acts, and including unintentional breach of contract; or (2) the total sum of \$ 250,000 for Client's Claims arising out of negligence, or other causes for which Neglia has any legal liability, other than as described in (1) above.

In no event shall either Neglia or Client be liable for consequential or indirect damages, including, without limitation, loss of use or loss of profits, incurred by one another or their subsidiaries or successors, regardless of whether such damages are caused by breach of contract, willful misconduct, negligent act or omission, or other wrongful act of either of them.

ARTICLE IV - INDEMNIFICATION: If any claim is brought against Neglia, its employees, agents or subcontractors (hereinafter for purpose of this Article IV referred to collectively as "Neglia") and/or Client by a third party, relating in any way to the Services, the contribution and indemnification rights and obligations of Neglia and Client, subject to the limitations of liability under Article III above, shall be determined as follows: (1) if any negligence, breach of contract, or willful misconduct of Neglia caused any damage, injury or loss claimed by the third party, then Neglia and Client shall each indemnify the other against any loss of judgment on a comparative responsibility basis under comparative negligence principles (Client responsibility to include that of its agents, employees and other contractors); and (2) unless Neglia was guilty of negligence, breach of contract, or willful misconduct which in whole or in part caused damage, injury or loss asserted in the third party claim, Client shall indemnify Neglia against the claim, liability, loss, legal fees, consulting fees and other costs of defense reasonably incurred.

ARTICLE V – INSURANCE: Neglia agrees to maintain (1) Statutory Workers' Compensation; and (2) Comprehensive General and Automobile Insurance Coverage in the sum of not less than \$ 1,000,000.

ARTICLE VI - FORCE MAJEURE: Neither party shall hold the other responsible for damages or delays in performance caused by force majeure, acts of God, or other events beyond the control of the other party or that could not have been reasonably foreseen and prevented. For this purpose, such acts or events shall include, but not be limited to, unusual weather affecting performance of the Services, floods, epidemics, war, riots, strikes, lockouts, or other industrial disturbances, protest demonstrations, unanticipated site conditions, and inability, with reasonable diligence, to supply personnel, equipment, or material for the Services. Should such acts or events occur, both parties shall use their best efforts to overcome the difficulties and to resume as soon as reasonably possible the normal pursuit of the Services.

ARTICLE VII - TERMINATION AND SUSPENSION OF WORK: The obligation to provide further Services under this Agreement may be terminated by either party upon fourteen (14) days written notice in the event of substantial failure by the other party to perform in accordance with the terms hereof through no fault of the terminating party. In the event of termination, Neglia shall be paid for all services rendered up to and including the date of termination. The parties agree that Neglia may elect to suspend providing services under this Agreement if payment of any invoice is not made within thirty (30) days of the date of the invoice as provided in Article I. In the event that the termination was initiated by the Client, Client agrees to pay Neglia an additional ten percent (10%) of the total fee earned by Neglia.

ARTICLE VIII - REUSE OF DOCUMENTS: All documents, including Drawings and Specifications prepared by Neglia pursuant to this Agreement, are instruments of service in respect to the Project. They are not intended or represented

to be suitable for reuse by Client or others on extensions of the Project or on any other Project. Any reuse, without written verification of adaptation by Neglia for the specific purpose intended, will be at Client's sole risk and without liability or legal exposure to Neglia; and Client shall indemnify and hold harmless Neglia from all claims, damages, losses, and expenses including Attorneys' fees arising out of or resulting there from. Any such verification or adaptation will entitle Neglia to further compensation at rates to be agreed upon by Client and Neglia.

ARTICLE IX - CONTROLLING LAW: Any element of this Agreement held to violate a law or regulation, or whose insurability cannot be confirmed by design professional, shall be deemed void, and all remaining provisions shall continue in force. However, client and design professional will in good faith attempt to replace any such voided element with one that is enforceable and/or insurable, and which comes as close as possible to expressing the intent of the original provision.

ARTICLE X - SUCCESSORS AND ASSIGNS: Client and Neglia each bind themselves and their Partners, Successors, Executors, Administrators, Assigns, and Legal Representatives to the other party to this Agreement and to the Partners, Successors, Executors, Administrators, Assigns, and Legal Representatives of such other party in respect to all covenants, agreements, and obligations of this Agreement. Neither Client nor Neglia shall assign, sublet, or transfer any rights under, or interest in, this Agreement without the written consent of the other party, except as set forth below. Unless specifically stated to the contrary, in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement. Nothing contained in this paragraph shall prevent Neglia from employing such independent consultants, associates, and subcontractors, as it may deem appropriate, to assist in its performance of services, hereunder. Nothing herein shall be construed to give any rights or benefits hereunder to anyone other than Client and Neglia.

ARTICLE XI - ARBITRATION: All claims, counterclaims, disputes, and other matters in question between the parties, hereto arising out of or relating to this Agreement or the breach thereof, will be decided by arbitration in accordance with the Construction Industry Arbitration Rules of the American Arbitration Association. This Agreement to arbitrate and any other agreement or consent to arbitrate entered into will be specifically enforceable under the prevailing arbitration law of any court having jurisdiction. Notice of demand for arbitration must be filed in writing with the other parties to this Agreement and with the American Arbitration Association. The demand must be made within a reasonable time after the claim, dispute or other matter in question has arisen. In no event may the demand for arbitration be made after institution of legal or equitable proceedings based on such claim, dispute or other matter in question would be barred by the applicable statute of limitations.

All demands for arbitration and all answering statements thereto, which include any monetary claim, must contain a statement that the total sum or value in controversy as alleged by the party making such demand or answering statement is not more than \$ 200,000.00 (exclusive of interest and costs.) The arbitrators will not have jurisdiction, power, or authority to consider, or make findings (except in denial of their own jurisdiction) concerning any claim, counterclaim, dispute, or other matter in question where the amount in controversy thereof is more than \$ 200,000.00 (exclusive of interest and costs) or to render a monetary award in response thereto against any party which totals more than \$ 200,000.00 (exclusive of interest and costs.)

No arbitration arising out of, or relating to, this Agreement, may include, by consolidation, joinder, or in any other manner, any person or entity who is not a party to this Agreement.

The award rendered by the arbitrators will be final, not subject to appeal, and judgment may be entered upon it in any court having jurisdiction thereof.

Executive Summary of Jeffrey R. Surenian, Esq.

Experienced - Mr. Surenian has forty years of experience working intensively and virtually exclusively with the Mount Laurel doctrine, commencing with his clerkship with the esteemed Honorable Eugene D. Serpentelli in 1983 following his appointment by former Chief Justice Wilentz as one of the three trial judges to implement the Mount Laurel doctrine. Currently, roughly 70 municipalities across New Jersey have retained his firm to serve as Special Mount Laurel counsel. More municipalities rely on the Mount Laurel expertise of his firm by far than any other firm in the State. The New Jersey State League of Municipalities also relies on his expertise as associate legal counsel. The New Jersey Institute of Local Government Attorneys also recently inducted him and swore him in as a member. In addition, the Statewide Consortium of 288 municipalities charged Mr. Surenian to represent its interests in the litigation concerning “the gap”. Also, (i) Ocean County municipalities; (ii) Mercer County municipalities and (iii) the Vicinage 13 Municipalities in Hunterdon, Somerset and Warren Counties each hired Mr. Surenian’s Firm to represent their interests on fair share methodology issues and on various other issues in the case of the Vicinage 13 municipalities.

Competent - Thomson Reuters included Mr. Surenian in its list of “Super Lawyers” within the Land Use practice area for 15 years in the period spanning 2009 through 2024. Also, in 2015, Mr. Surenian received the Fred G. Sickel Award : *In Recognition of Excellence in Local Government Law, Exemplary Service to the Legal Profession and to Local Government, Outstanding Community Service and Unselfish Assistance Rendered to Other Local Government Attorneys.*

Ethical - In 2009, the Michael A. Pane Memorial Fund named him the recipient of the Michael A. Pane, Esq. Award for Excellence in Ethics. The award reads as follows: “Conferred upon the Attorney Who has Exemplified the Highest Standards of Ethics and Whose Work has Significantly Enhanced the Integrity of Local Government”.

A Proven Record of Success

Mr. Surenian represented Brick Township, where he developed a concept that has come to be known as “credits without controls.” His success in securing approval of this new category of credits resulted in the Brick Township’s receipt of over 400 credits and Berkeley Township’s receipt of over 700 hundred credits worth several million dollars to each municipality.

He represented or represents the Townships of Cherry Hill, Toms River, Middletown, and Wayne – municipalities with fair-share quotas of more than 1,000 units. He crafted legally defensible legislation that capped the fair-share obligations of these communities at 1,000 units.

Mr. Surenian also assisted the Boroughs of Manasquan and Beachwood in protecting their last significant vacant parcel of land from development.

For Barnegat and Wall Townships, Mr. Surenian secured the first two waivers in the state from the cap on age-restricted housing created by the New Jersey Council on Affordable Housing (“COAH”).

Mr. Surenian secured Appellate Division approval of a “temporary immunity” procedure, which municipalities routinely rely upon to insulate themselves from Mount Laurel suits by avaricious developers and/or overly zealous non-profits. Mr. Surenian and other municipal attorneys persuaded the Supreme Court in Mount Laurel IV to utilize this procedure to protect municipalities that sought to participate in the new procedures the Court announced.

Mr. Surenian also achieved considerable success in establishing the principle that developers have an obligation to make good-faith efforts to achieve an amicable accord prior to instituting builder’s remedy suits. At least three different judges have dismissed three different builder’s remedy suits based on Mr. Surenian’s success in establishing this principle and the Appellate Division has affirmed this principle in an unreported decision.

Mr. Surenian has regularly rebuffed efforts by developers to secure builder’s remedies throughout the State in court or in COAH proceedings when COAH was still functioning, despite the vigor and skill of the professionals who represent the developers.

In 2016, Mr. Surenian persuaded the Appellate Division on behalf of the Township of Barnegat that the courts lacked the authority to impose an obligation for the so-called “gap period”: the 16-year period between 1999 and 2015. The Supreme Court affirmed the Appellate Division decision, as modified. The Supreme Court’s ruling on the so-called gap calls for an analytic approach that resulted in radically lower obligations than those advocated by FSHC: 75,577 instead of 149,825.

In 2017, Mr. Surenian served as co-lead counsel to represent the interests of Mercer County municipalities in a 41-day trial to determine an appropriate fair share methodology. Mr. Surenian and his co-lead counsel had success in persuading the so-called “numbers master” of the merits of the positions of the Mercer municipalities and Judge Jacobson’s 2008 ruling largely followed the Master’s recommendations. Indeed, Messrs. Surenian and Buzak succeeded in persuading Judge Jacobson to adopt standards that slashed the full fair share numbers that FSHC advocated in half.

In 2022, Mr. Surenian’s firm has taken the lead in seeking to compel the Governor to appoint members to the COAH Board so that COAH in lieu of trial judges resumes its role in implementing the pro-municipal policies embodied in the Fair Housing Act.

In 2023 and 2024, Mr. Surenian firm took the lead in challenging the Legislature’s efforts to make radical changes to the Fair Housing Act. Although the firm slowed down the Legislation that was intended to be adopted in lame duck and was instrumental in securing some changes, the changes did not go far enough.

In 2024, the New Jersey Institute of Local Government Attorneys (NJILGA) made Mr. Surenian one of its trustees. NJILGA created an affordable housing committee to propose a response to the Amended Fair Housing Act (FHA). The committee recommended a further amendment to the FHA to redefine, in a legally defensible way, the way the regional need was calculated for Round 4. The Institute voted in support of the Legislation the committee proposed. If enacted, the Legislation would dramatically reduce the Round 4 obligation of all municipalities.

These examples represent some of the successes Mr. Surenian has achieved in aiding diverse municipalities in their struggle with the burdens of Mount Laurel compliance.

An Unparalleled Mastery of Affordable Housing Laws

Mr. Surenian authored *Mount Laurel II* and the *Fair Housing Act* (ICLE, 1987), a treatise recognized as authoritative by many jurists and cited by the New Jersey Supreme Court twice.

He also co-authored a chapter on affordable-housing law in a well-respected treatise entitled *New Jersey Land Use and Environmental Law* (Matthew Bender, 1993).

Mr. Surenian has lectured at Harvard University and has served as a lecturer and panelist at a number of seminars instructing municipal officials and attorneys about the ever-evolving field of affordable-housing law.

FAIRVIEW AVENUE DRAINAGE**A RESOLUTION OUTLINING BOGOTA'S EFFORTS TO MITIGATE FLOODING ISSUES ON
FAIRVIEW AVENUE, AND REQUESTING THE COOPERATION OF THE NEW JERSEY
DEPARTMENT OF TRANSPORTATION**

WHEREAS, a particular stretch of Fairview Avenue within the Borough of Bogota has developed flooding issues after being impacted by Tropical Storm Ida in 2021; and,

WHEREAS, in the days following the storm, Borough Officials held virtual and on-site meetings with representatives from the New Jersey Department of Transportation ("NJDOT"), in order to identify solutions to the newly developed flooding problems; and,

WHEREAS, over the course of these meetings, it was determined that the sound barriers along Route 80, which are owned and maintained by the NJDOT, were impounding water in the low-lying area of Fairview Avenue, and that existing drainage systems were not sufficiently capturing and redirecting the stormwater that was being dammed against the barrier; and,

WHEREAS, portions of the existing drainage system on Fairview Avenue are owned and controlled by the Borough of Bogota, and other portions are owned and controlled by the State of New Jersey; and,

WHEREAS, following the October 2021 meetings, the Borough began the process of making improvements to the drainage systems that it controlled on Fairview Avenue, while the NJDOT hired a consultant to survey the area, and review the design documents for the Route 80 barrier in order to determine ways that stormwater drainage can be improved; and,

WHEREAS, in December of 2021, Borough Officials met on-site again with NJDOT representatives, as well as their consultant, Dewberry Engineers, at which time the NJDOT acknowledged its responsibility for maintaining the drainage area next to the sound barrier, and conceded that additional infrastructure was necessary to mitigate flooding issues on Fairview Avenue; and,

WHEREAS, the NJDOT assured the Borough that it would take steps to mitigate flooding on Fairview Avenue due to the impact of its sound barrier, and that it would identify those steps once it reviews Dewberry Engineers' report on the matter; and,

WHEREAS, the NJDOT and Dewberry Engineers next met with Borough Officials in March 2022 to discuss the findings of the report, including confirmation that the flooding can be attributed to the Route

80 sound barrier functioning as a dam, with no flooding occurring prior to its installation, and that the existing drainage systems cannot handle more than a 15-year storm event, per its design; and,

WHEREAS, in light of the findings above, the Borough requested that the NJDOT provide solutions for the issues caused by its sound barrier, which the NJDOT agreed to provide following an internal meeting; and,

WHEREAS, the Borough attempted to contact the NJDOT regarding the promised solutions over the next several months, but was repeatedly informed that more time was needed; and,

WHEREAS, in July of 2022, the Borough was informed that the NJDOT has changed its position, and that no work would be done on its sound barriers until the Borough completed its upgrades to the portion of the systems that Bogota controlled; and,

WHEREAS, despite this setback, the Borough continued its improvements to the drainage and sewer systems, and as well as making requests to the NJDOT to clean, maintain, and inspect the drainage area that it has acknowledged responsibility for; and,

WHEREAS, Borough Officials next met with the NJDOT in September 2022, regarding the Borough's application for a NJDOT Local Aid Grant for Fairview Avenue; and,

WHEREAS, in October of 2022, Borough Officials met with representatives from the New Jersey Institute of Technology (NJIT) to discuss the availability of federal grants in addition to any NJDOT grants or other State funds to address the flooding on Fairview Avenue, and how NJIT can help to facilitate this process; and,

WHEREAS, the Borough continued to perform work necessary to fix the drainage issues on Fairview Avenue through the winter of 2022-2023; and,

WHEREAS, in February of 2023, the Borough began replacing 75 feet of sewer lines on Fairview Avenue in order to address a sag in the line and increase sewer capacity, and completed this work in April 2023; and,

WHEREAS, in March of 2023, the Borough was informed that it had been awarded an NJDOT Local Transportation Program Fund Grant in the amount of \$1.3 million; and,

WHEREAS, the Borough prepared the necessary preliminary documents for the next phase of improvements to Fairview Avenue, and received authorization to proceed with initial steps from the NJDOT in August 2023; and,

WHEREAS, the Borough received authorization from the NJDOT to proceed with public bidding in January 2024; and,

WHEREAS, the bidding process was completed on May 16, 2024, with the work awarded to DLS Contracting via Resolution #2024-125; and,

WHEREAS, the plans for this project were prepared by the Borough's Engineer, Neglia Engineering, and included an advisory that State action will be required to address flooding that exceeds a 15-year storm event, as indicated in the Dewberry report, because the Borough lacks jurisdiction to replace or modify any drainage systems owned by the State of New Jersey; and,

RESOLUTION # 2024-238

DATE: 12-05-2024

WHEREAS, the improvements to be made pursuant to Resolution #2024-125 only covers the Borough-owned portion of the drainage system, and;

WHEREAS, this advisory was therefore necessary, because the State-owned system can only handle a 15-year storm event, and since the Borough's system connects to it, the entire system must be upsized for the drainage capacity of the lines to improve; and,

WHEREAS, the NJDOT has exclusive authority to approve work done on its property, including the section of the Route 80 sound barrier that is causing the flooding on Fairview Avenue, and has rejected all requests by the Borough to make modifications to the barrier to allow for drainage, even though the Dewberry Report recommends that flood relief mechanisms be added to the sound barrier; and,

WHEREAS, the NJDOT has nevertheless recognized the need for flood mitigation work in this area, and has approved a Local Transportation Program Fund grant in the amount of \$1.3 million for this project; and,

WHEREAS, these grant funds will be most effectively used, and will only provide lasting relief for the area, if the Borough's efforts are complimented by modifications to the sound barriers and drainage systems controlled by NJDOT, which would allow for the draining of stormwater currently impounded by their presence.

NOW, THEREFORE, BE IT RESOLVED by the Mayor and Council of the Borough of Bogota, that the Borough hereby requests that the New Jersey Department of Transportation engage in a collaborative effort with the Borough to provide lasting relief from flooding to Fairview Avenue; and,

BE IT FURTHER RESOLVED, that these efforts shall include 1) modifying the sound barrier at low-lying areas of Fairview Avenue to allow for drainage of water, and 2) upsizing the drainage systems owned and controlled by NJDOT to have the capacity that exceeds a 15-year storm event, or providing consent and sufficient funding to the Borough to perform this replacement; and,

BE IT FURTHER RESOLVED, that a copy of this Resolution shall be sent to the Commissioner of the New Jersey Department of Transportation for consideration.

SUPPORTING AMENDMENT OF THE FAIR HOUSING ACT (FHA) AS PROPOSED BY THE NEW JERSEY INSTITUTE OF LOCAL GOVERNMENT ATTORNEYS (NJILGA)

WHEREAS, the current standards embodied in the New Jersey Fair Housing Act (“FHA”) impose unrealistic burdens on municipalities as demonstrated by the fact that the FHA calls for the imposition of a statewide affordable housing obligation of 84,698 just for Round 4 on municipalities that issued only 99,956 Certificates of Occupancy for all housing units in the 2010-2020 period that was used to establish prospective need obligations for Round 4; and

WHEREAS, the imposition of unrealistic obligations does not advance the realistic opportunity for the construction of more affordable housing, but instead encourages opposition and litigation; and

WHEREAS, the imposition of excessive obligations disincentivizes municipalities to voluntarily comply – an overarching goal of all three branches of government; forces municipalities to overdevelop, thereby turning our Garden State into the garden apartment state; and spikes the obligations on taxpayers as municipal governments are left no choice but to commit to expensive compliance techniques in order to try to ameliorate the concerns of their communities with overdevelopment; and

WHEREAS, even-handed justice requires that the obligations imposed by our laws must be realistic in order to justify imposing an obligation of constitutional dimension on municipalities to create a realistic opportunity for affordable housing; and

WHEREAS, the unrealistic obligations imposed by the current laws can be easily addressed by redefining the manner in which the regional need is calculated to be faithful to a principle embodied in the FHA despite its many changes over almost forty years; and

WHEREAS, more specifically, the FHA has consistently defined the prospective need to include “a projection of housing needs based on development and growth which is *reasonably likely to occur* in a region or a municipality, as the case may be, as a result of actual determination of public and private entities” N.J.S.A. 52:27D-304 (j); and

WHEREAS, a determination of the number of new residential housing units, adjusted to remove tear down/rebuilds, represents a far more solid foundation to project “development and growth which is *reasonably likely to occur*” than any other standard; and

WHEREAS, establishing prospective need for affordable units based on 20 percent of residential housing units *actually constructed* over a prior ten-year period accords with New Jersey’s long-standing policies of empowering municipalities to cure the abuse of exclusionary zoning with traditional inclusionary zoning; and

RESOLUTION # 2024-239

DATE: 12-05-2024

WHEREAS, the demand for market-rate housing is a reasonable basis for determining whether and to what extent a realistic opportunity for the creation of affordable housing may exist, and the issuance of certificates of occupancy for new residential units is a reliable indicator of such demand; and

WHEREAS, a standard that ensures that as our state grows it grows with a commensurate number of affordable housing units will put the doctrine on a trajectory that will avoid the doctrine from crumbling under its own weight by forcing municipalities to try to address overwhelming obligations; and

WHEREAS, the New Jersey Institute of Local Government Attorneys ("NJILGA") has expressed its support for an amendment to the FHA by which "development and growth which is *reasonably likely to occur*" would be based upon the net number of new housing units constructed over each ten-year period for which the state's affordable housing rounds are established; and

WHEREAS, for the above reasons, the Mayor and Council of the Borough of Bogota has determined that its prospective need, and the prospective need for all New Jersey municipalities for the fourth round and all future rounds of affordable housing obligations, should be calculated using NJILGA's proposed net housing unit based on certificates of occupancy as a methodology rather than the current FHA methodology based on "household change;"

NOW, THEREFORE, BE IT RESOLVED, by the Mayor and Council of the Borough of Bogota, in the County of Bergen, and State of New Jersey, that the New Jersey Legislature is hereby requested to enact the amendment to the Fair Housing Act that has been recommended by the New Jersey Institute of Local Government Attorneys; and

AND BE IT FURTHER RESOLVED, that the clerk of the Borough of Bogota is also hereby directed to send a copy of this signed, dated Resolution within five (5) days after its adoption, by mail and email to the following additional listed persons and entities:
