CITIZEN REMARKS: One (5) minute time limit per person

Motion: Councilman Mitchell made a motion to open Citizen Remarks. Seconded by Councilman Hordern. The motion passed with a voice vote.

Monica Robles- supports the idea of flag football as a feeder program for high school football. She requested timely updates for flag football cancellations and schedule changes and more support from the Recreation Director. In addition to technology reducing participation in youth sports, families are participating in other towns' more reliable recreation programs. She asked how the Borough will support coaches, how it will enhance communication, and whether families will be surveyed before creating new programs. She praised the cheerleading program and asked how that program's successes can be translated to other sports. She offered to develop and run a pilot program and asked about the approval process and whether the town would be open to it. She conducted a survey and recruited volunteers for the Fall Festival and can do so for upcoming Recreation Department events. She asked how the Borough plans to organize community involvement as the recreation programs expand and use the data collected.

John Piarrulli- supports the comments of Ms. Robles. He organized the league teams on a communication app. He asked about the plan to build up programming for the new Recreation Center. He questioned the lack of parking near schools; he had to call the police multiple times for cars blocking his driveway and his car was damaged once.

Diana Blankenship- posed questions about the change in the traffic pattern near Bixby School. There is no parking in front of her house during certain hours causing her to lose access to the space in front of her house. Teachers block her driveway and she has to call the police a few times a month in response. Not having a parking spot in front of her house makes it difficult to receive deliveries and for contractors to park. She did not receive any notice about the parking and traffic patterns changing. She asked the Mayor and Council to find another place for Bixby School teachers to park.

Joy Hermalyn Musto- requested that the trees in front of her house be trimmed. She asked that the town provide candy to those who live on Larch Ave since all the trick or treaters come there on Halloween and the houses give out immense amounts of candy at great personal cost.

Julie Falcon- asked about how Recreation Department will ramp up programming and what the overall plan is. Bogota needs dedicated leadership and planning to maximize utilization of the new Recreation Center.

Ray Dwyer- informed the Mayor and Council that the new website is up and running. He asked them to take a look at the new website and share any feedback with him.

Kate Mirzo- asked whether the security walkthrough was completed at the Recreation Center and whether it is fully open and ready to use. She also asked when the open gyms nights would begin.

Motion: Council President Carpenter made a motion to close Citizen Remarks. Seconded by Councilwoman Vergara. The motion passed with a voice vote.

COUNCIL RESPONSE TO CITIZEN REMARKS

Councilman McHale- suggested moving back to a Recreation Commission from the current Recreation Committee structure. It takes a lot of work to run recreation programs and in the past each commissioner was responsible for a sport.

Council President Kohles- concerns about the high school football program should be brought to the Board of Education. The Recreation Center has been nine years in the making with a lot of controversy. She and the entire community were proud to cut the ribbon on the Recreation Center.

Councilman Mitchell- the situation was poor before the fields were redone and the Recreation Center was built. Recreation programs take a lot of work and volunteers, perhaps a Recreation Commission would be a good idea. The Mayor and Council put love back into the Recreation Department and community with the construction of the Recreation Center.

Mayor Fede- explained the process by which the traffic pattern was changed at Bixby School, which involved the Police Department and Mayor & Council. Any traffic change requires ordinances to be passed, which entails two public meetings and public comments. The prior pattern at Bixby was unsafe with all the parents dropping off kids at the same time in a congested area.

Borough Administrator O'Malley- notices were provided to all residents living near Bixby School about the proposed traffic changes. When the town was built it was much smaller with fewer people, teachers used to walk to school and now each household has multiple cars. Times have changed and there is no space to build additional parking and infrastructure. The new traffic plan was a success; there were few complaints from residents and the school district was pleased with the results.

Mayor Fede- suggested that Councilman McHale bring the request for limited parking in front of houses near Bixby School for deliveries and contractors to the Police Department for any suggested solutions.

Councilman Hordern- anyone, including teachers and police, who are parking illegally should receive a ticket. No one can control who parks in front of a house on a public street. Bogota has outgrown its area with residents, students, and cars. Teachers used to park in the schoolyard, which is no longer permitted under state fire codes.

Borough Administrator O'Malley- will send the DPW to Ms. Musto's house who requested tree trimming.

Mayor Fede- the Borough has 3,000 street trees and a budget of $25,000. The Borough has already spent $32,000 on trees this year. Each week five or six tree complaints come in and the tree list is 125 addresses long. Resident can obtain a tree permit if they wish to trim a tree

themselves. Residents are not being ignored, there are limited resource and an overwhelming demand for tree trimming and removals.

Borough Administrator O'Malley - Teaneck shuts down Larch Ave for Halloween, which creates an unsafe situation if Bogota were to open the road. Teaneck embraces and promotes the event and is not stopping it. He will reach out to Teaneck in the winter to try to address the issue. No one wants to be a Grinch and residents on Larch Ave are not required to participate.

The Mayor, Council, and Administrator discussed how Halloween is handled in Bogota.

Councilman Hordern- the town is working toward having more events at the Recreation Center, as residents on Larch Ave deal with road closures more frequently than any other street in town. Bogota lost many of its recreation sports about 10 years ago and it is now in the process of building it back up. The Administrator is working toward better communication and responsiveness from the Recreation Department.

Borough Administrator O'Malley - has set up a meeting with representatives from the Board of Education and Athletic Director to discuss collaboration on recreational programs for students and youth. He welcomes public participation and residents volunteering and leading recreational initiatives. There was a survey at the Fall Festival, but few people filled it out. Turning interested people into active volunteers is very difficult. Weather cancellations are tough calls; there is a lot of uncertainty with weather and whether activities will work out in the rain or indoors. He helped to create the cheerleading and flag football programs for minimal cost. The cheerleading program was spearheaded by two dedicated volunteers. He noted that only about 10 young men play football in neighboring towns. The flag football program was created to get people interested and get the numbers needed for a regular youth football program. A t-ball league is also being started, that age group is being targeted to be able to build sports programs and expand to additional age groups. Eighty-four youth and 16 coaches are needed for an eight-team league. A Recreation Coordinator was hired at the last Mayor and Council meeting to answer questions, assist with Community Pass, schedule, and handle day-to-day issues at the Recreation Center. A full-time Recreation Director will be hired for 2027. Many residents are reaching out with ideas for programming, there are only a limited number of after-school hours available for use.

Councilman Mitchell- growing up in a sport like football is important to learn the fundamentals and how to play safely and avoid injuries. Playing a contact sport without growing up playing it leads to injuries, which hurt the high school football program.

Borough Administrator O'Malley - described the challenges in creating programs, including the departure of the Recreation Director, the finalization of the Recreation Center, and prior lack of parent and volunteer involvement. He is pleased to see the new excitement in the community and volunteers, and the Recreation Center will be in full swing in January of 2027. Public participation and volunteerism are vital and suggested residents bring their concerns and ideas to the Recreation Committee meeting next week. Private parties and events will not be permitted at the Recreation Center; it will not be available to be rented out. The Board of Education has been unhappy with litter and damage to their fields; he has seen garbage around the Recreation Center

and picked it up. He implored the public to take care of Borough and Board of Education property, including the Recreation Center.

Councilman Hordern- the Recreation Department has been going through growing pains, as it has not had such an amazing facility before and it presents a lot of opportunity. He does not want to rush to get a new Recreation Director. It is important to get the right person as the new Recreation Director who will stay and grow with the Borough. He praised the newly hired Recreation Coordinator's performance to date.

The bond ordinance will not create any new debt for the Borough, leftover money from the Recreation Center will be used. The project should be finished by Memorial Day, and it will be one of the nicest parks in Bergen County.

Councilwoman Carpenter- in addition to reallocated funds from past bonds, some of the funds being used are grant monies from the county and other sources will also be used.

2nd CITIZEN REMARKS: One (5) minute time limit per person

Motion: Councilman Hordern made a motion to open 2nd Citizen Remarks. Seconded by Councilwoman Vergara. The motion passed with a voice vote

Monica Robles- she was excited about the recreation questionnaire at the Fall Festival , however there were no printed copies and pens at the start of the event and it wasn't available via a QR code. There were many more than seven paper responses and she hopes the Borough will continue spreading the questionnaire. The PTOs and preschool programs are open to sending things home with students. She shared the t-ball and soccer interest forms with the PTOs. The PTOs said they were unable to collaborate with the Recreation Department for the past year. She

connected the PTOs with Recreation Department staff members via email. Other towns' recreation programs are communicating better with athletes and families by providing earlier cancellation notices and rain dates. She expressed interest in being appointed to the Recreation Committee.

Diana Blankenship- wanted to know if anything will be done about her parking situation.

Joy Hermalyn Musto- questioned why the town continues to plant trees when it does not have enough resources to prune the existing trees and is adding liability via the newly planted trees. She cannot afford both her taxes and to prune town trees. She has had to fix her sidewalks four times due to town tree roots. The town has had to pay her three times for trees falling on her fence. One time a tree fell and took out a street sign, which has never been replaced. She supports fixing the parking situation for the other residents with a resident parking permit that is limited to one per family. Many trick or treaters come from other towns and also trick or treat after dark, she requests some limits on Halloween. She praised the DPW's performance during the snow storm and the governing body's comity in the current political climate.

John Piarrulli- there was no Memorial Day Parade and the Borough did not hold an event for America's 250th Anniversary. When he moved to Bogota there was a nice small-town feel. He asked what the town's identity was now. The High School football program should be everyone's responsibility.

Fire Chief Robert Dirr- thanked the Mayor and Council for the items in the bond ordinance that are beneficial to the Fire Department, especially the communication equipment. In January the Fire Department will be hosting Firefighter I training for all new members to attend, they are awaiting the start date from the academy. He asked for update on the firehouses vis a vis the Department of Agriculture grant and what the plan is if the cost is larger than the available funds.

Josh Ortega- his child goes to different towns to play sports and he asked what was preventing Bogota from having at least one team in town. He wants to play basketball with his son at the new Recreation Center to avoid having to play at a YMCA out of town. The DPW is doing an excellent job with the leaves. He asked what the Borough needs from parents, he knows many that would get involved.

Carolyn Vento- her child joined a town soccer program years ago and since then he has had to join other towns' soccer programs in order to play. In the school district she works in they send home flyers for every sport and activity. Youth sports allow children and parents to grow and bond together. Bogota does not have many sports and they are not organized well. She knows many parents that would sign their kids up and get involved.

Motion: Councilwoman Carpenter made a motion to close 2nd Citizen Remarks. Seconded by Councilman Mitchell. The motion passed with a voice vote.

COUNCIL RESPONSE TO 2ND CITIZEN REMARKS

Mayor Fede- explained the process by which parking rules would be changed. The Police Commissioner brings the issue to the Police Department, the Traffic Bureau conducts a study, and then writes a memo to the Mayor and Council with recommendations. The recommendations are turned into an ordinance which is introduced at a public Mayor and Council meeting then passed at a subsequent meeting.

Councilman Hordern- shared his concerns about the public being told they cannot park on a public street, for instance, when a resident has a party and guests are unable to park on the street. Currently, only handicap parking spots are designated in front of resident's homes. He recommended that Ms. Robles speak to the Mayor about being appointed to the Recreation Committee.

Mayor Fede- indicated that there are two Recreation Committee members that she does not plan to reappoint when their term ends.

The Mayor, Council, and Administrator discussed how Halloween on Larch Avenue is handled.

Councilman Hordern- the Borough needs to have a better plan for trees and the Administrator is working on it. Two DPW employees are being sent to school to learn to trim trees so some trimming can be done in house. He is in talks with Police Department about a traffic and visibility study for Palisade Ave and River Rd. He recalled marching in the parade as a youngster, there were hundreds of people marching. Parade participation has dwindled to few people and it was decided to put the money into a different event. It is not the same town that he grew up in and it is in a transition period. Multi town sports leagues are a possibility but other towns have to cooperate and it has to work for the Borough and residents. In speaking to the Recreation Department youth sports participation is a countywide issue and not localized in Bogota.

Borough Administrator O'Malley- the Borough is working on how best to organize open gym nights and how to coordinate it between adults, children, activities, and age groups. He will have updates for everyone soon. Even larger towns are cutting youth sports programs due to lack of youth participation.

Council President Kohles- prospective Recreation Directors have wanted very high salaries or have had no experience. She wants to see all the programs succeed. Bogota's parks and schools are flourishing. She will work together with everyone to solve the town's problems, and it will take time and money.

Borough Administrator O'Malley- attendance at the parade dropped over the past years and the Borough was spending upwards of $10,000 on an event that few people attended. The Mayor had the idea and the Borough supported a different event to honor veterans on Memorial Day. He did not want to spend funds on a 250th Celebration based on poor attendance at prior events, though it was a missed opportunity.

Mayor Fede- Ridgefield Park meets year-round to put on their 4th of July Parade. Councilman Mitchell should begin holding Parade Committee meetings in November to plan for the Memorial Day event.

The Mayor, Council, and Administrator discussed how past parades were organized.
The Mayor, Council, and Administrator discussed private, public, non-profit rentals and reservations for the fields and Recreation Center.

Councilwoman Carpenter- explained the rules that the Borough must follow since it accepted funds through the Green Acres program, which do not allow residents to be charged for use of the facilities. The pavilion will still be available to be rented out for parties and private events.

Borough Administrator O'Malley- there will be a presentation from the consultant about the firehouse at the next meeting.
